BLUE HILLS TECHNICAL INSTITUTE

LETTER FROM THE EDITOR:

To the class of 1986,
This years' yearbook is dedicated to you, the graduates, the faculty and members of Blue Hills Technical Institute. It is my hope that you will enjoy this yearbook for years to come and that it will capture everything that you liked, loved, and laughed about in your time spent here.
I want to thank the staff of Blue Hills for the past twenty years that will come to be known as the best at this campus. I would also like to thank personally Ms. Gafney, our yearbook advisor who gave me support and advice needed to approach this project; and Maureen Thayer, who was always there with a sincere smile of encouragement and understanding.
Best of luck and success to all.
Sincerely your yearbook editor. Diann A. Withee

CANDIDS

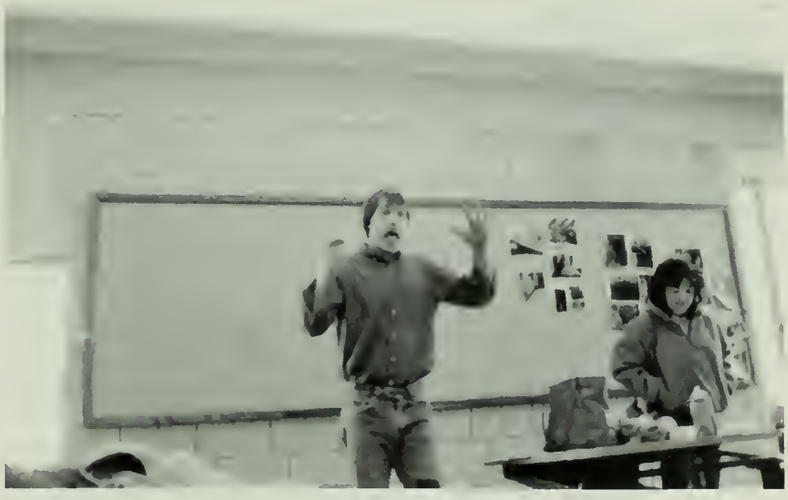
How Do I Get Myself Into These Things?

Well, Maybe it wasn't funny.

Does anyone know how to work these things?

Ahhhh!!!

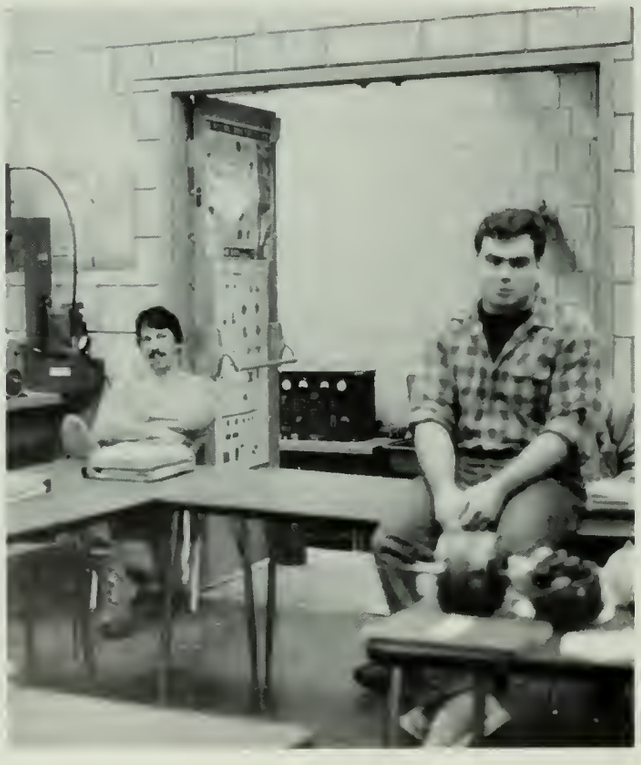


CANDIDS

. . . Thats what I think of candids!

Do We Get A's Now!

Does Anyone feel like doing work?

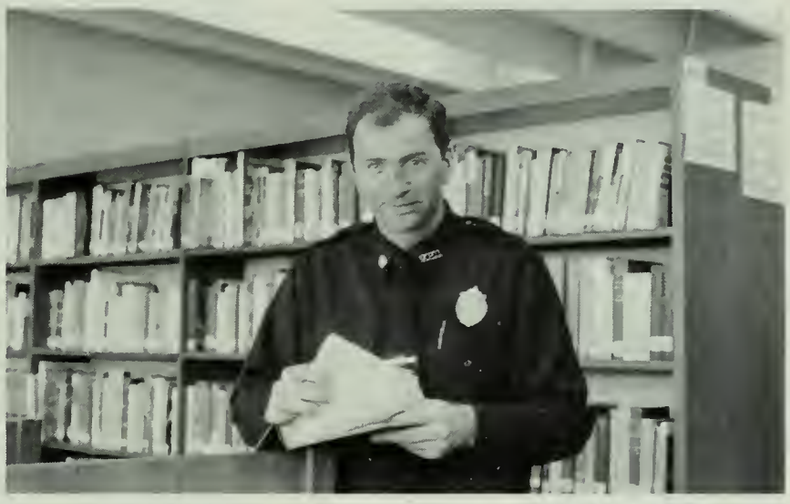


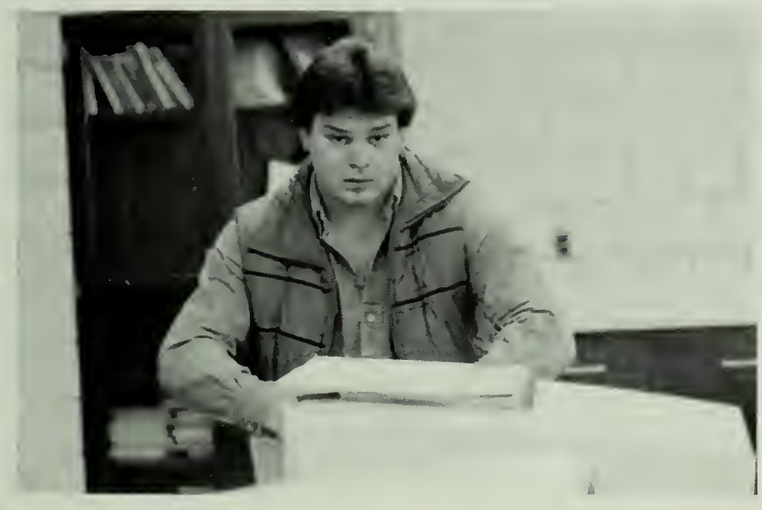
I thought they said free beer?

MORE CANDIDS

I don't know how to run these things either.

I just like looking at the pictures.





Isn't this day over?

I know, No smoking in the lab, but it isn't lit!!!

TO THE CLASS OF 1986

You are the twentieth and final class to receive diplomas from the Blue Hills Technical Institute, bringing the total number of post-secondary students trained at Blue Hills since 1966 to more than thirty-two hundred. In future years the educational programs here will be administered by Massasoit Community College. This change-over, brought about by the merger of the two schools, highlights an important lesson for us all to remember:

What school name is on the front of the "Institute building or on your diploma is not really important. What is important is the education offered and accepted within the building and what you, the Class of 1986, do with that education after you leave.

Take what we have made available to you, build on it and develop yourself into the finest technician and all round person you can be. As Superintendent Savoie stated to well at Commencement, in the future give back whatever you can to Blue Hills, Massasoit or any appropriate school where your knowledge and experience can be used by others to improve the training of tomorrow's technical students!

Use the values and professionalism learned at Blue Hills as the cornerstone for your future successes. Build upon them, one step at a time, always heading upward, striving to learn and improve. At no time in life does man reach perfection, and it is the individual who is never satisfied with status quo, who reaches the top. Blue Hills has provided that cornerstone and started you on the road of life. The direction you take is now up to you.

Congratulations to all "Blue Hills Technical Institute" graduates and best wishes to each of you for a peaceful and productive life.
